

# Fine Arts Task Force - Community Letter

## **Purpose:**

To inform key members/organizations in Madison about the Fine Arts Task Force; and, to meet our charges, the Task Force would community input/ideas and information about arts education expectations. The information would be collected in October/November.

## **Description:**

This fall the Fine Arts Task Force will be surveying community members/organizations, meeting and talking with students, teachers and parents. In order to provide a “heads up” to individuals and organizations, a letter to the Community would be sent from the task force (or Board President, Vice President, who is also Chair of the Performance and Achievement Committee). The letter would describe the Task Force’s charges, what work will be done this fall and how input can be provided to the Task Force.

Several task force members would draft the letter with a target send date in late September.

Committee approval is being sought for several task force members to draft the letter for approval prior to being mailed in September.
